Profile Summary

Frontend Developer with **1+ year** of professional experience building responsive, user-facing web and mobile applications using **React Native, React.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, and CSS3**. Skilled in component-based UI development, state management with Redux Toolkit, and integrating frontend components with RESTful APIs. Foundational backend experience with **Node.js, Express.js, PostgreSQL, and MongoDB**, plus automated testing with **Playwright**. Experienced with Firebase, payment gateway, and performance optimization. Focused on writing clean, maintainable code and collaborating with cross-functional teams.

Technical Skills

Languages	:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	:	React.js, React Native, Vue.js, Responsive Design, Component-Based Architecture, Tailwind CSS, Bootstrap, SASS
State & Routing	:	Redux, Redux Toolkit, Redux Persist, React Navigation
Backend	:	Node.js, Express.js, REST APIs, Axios, MongoDB, PostgreSQL
Testing	:	Playwright (automated end-to-end testing)
Tools/platforms	:	Git, GitHub, Visual Studio Code, Xcode, Firebase (Authentication, Cloud Firestore, Cloud Messaging)
Soft skills	:	Team Collaboration, Communication, Problem-Solving, Time Management

Experience

Mobile App Developer (React Native, TypeScript) Jan 2026 – Present
Aakri Impact Pvt Ltd. *Kochi*

- Developed and maintained cross-platform applications (Tharwah, Aakri) using **React Native, TypeScript, JavaScript, Redux Toolkit**, and **RESTful APIs** with reusable, component-based architecture.
- Contributed to the **Aakri Waste Management Platform** user apps with **100K+** downloads on Android and iOS.
- Integrated **Razorpay** payment gateway for the monthly payment flow in the Aakri salon-user app, enabling secure online payments.
- Integrated frontend components with backend services using **Axios** and REST APIs, covering authentication, order listing, and invoice **PDF generation**.
- Built responsive mobile UI components and features for **Android and iOS**, with state management and navigation using Redux Toolkit and React Navigation.
- Integrated Firebase services including push notifications and application-level services.
- Optimized app performance and reduced overall load time by 30% through efficient state management and caching.
- Troubleshot and fixed application bugs to improve stability, performance, and user experience.

Web Developer (Vue.js, Node.js) May 2025 – Oct 2025
Conscious Technologies *Remote – Bangalore*

- Developed frontend features for production web applications (**Snapbizz, Independa**) using **Vue.js, JavaScript, HTML, and CSS**.
- Contributed to server-side development and **REST API** integration using **Node.js, Express.js, and PostgreSQL**.
- Wrote automated end-to-end tests using **Playwright** to improve application reliability.

Projects

1. Tharwah – Waste Collection & Recycling Platform (User App + Delivery Partner App)
React Native, TypeScript, Redux Toolkit, Redux Persist, Axios, Firebase Cloud Messaging, Notifee, Google Maps API

- Built two cross-platform React Native apps (Android and iOS): **Tharwah Recycle** for customers and **Tharwah Driver** for delivery providers and store keepers.
- Developed reusable, component-based UI and **Redux Toolkit** state management across 35+ screens covering authentication, cart, pickup scheduling, wallet, and loyalty features.
- Implemented secure authentication and session management with **Axios interceptors**, Keychain-backed token storage, and automatic refresh-token rotation.
- Built a pickup scheduling flow integrating **Google Maps, Places Autocomplete, geolocation**, and REST API service-area eligibility checks.
- Implemented bilingual **English/Arabic** localization with **RTL** layout support across navigation, forms, alerts, and Arabic text validation.
- Developed a multi-role Driver app with customized navigation and order execution flows, and real-time GPS-based pickup sorting using the **Haversine formula**.
- Integrated **QR and barcode scanning** with Vision Camera and ML Kit for bag tracking and coupon redemption, including deduplication and a manual fallback.
- Architected a multi-slice **Redux Toolkit and Redux Persist** store to retain session state, item calculations, and barcode-tracked carts across offline app restarts.
- Built a multi-payment order completion pipeline for four waste categories (Recyclables, Hazardous, E-Waste, Bulk), with loyalty point deductions and dynamic bill recalculation.
- Integrated **Firebase Cloud Messaging and Notifee** for push notifications, deep linking, background tasks, and PDF invoice sharing on both platforms.

2. Aakri App
React Native, TypeScript, Redux Toolkit, Axios, Razorpay, REST APIs

- Developed salon-user features in a cross-platform React Native and TypeScript application for Android and iOS.
- Integrated the **Razorpay** payment gateway to implement a monthly payment flow, including checkout, payment status handling, and REST API integration.
- Built a completed-orders listing screen with API-driven data fetching, **Redux Toolkit** state management, and reusable UI components.
- Developing **invoice PDF generation** and sharing for completed orders.

Education

Bachelor of Computer Application 2021 – 2024
AJK College Of Arts and Science ***8.13 CGPA***

Certifications

- ReactJS Certification – Udemy **(UC-7e9c06b6-e859-4814-8cbc-0f1d3626a119)**
- MEARN-Full Stack Development – LUMINAR TECHNOLAB (Kochi)
